Flower Notebook Decoration

You will need:

- Composition notebook
- Construction paper
- Flower template (optional)
- Scissors
- Glue Stick

Here's what to do:

- Measure construction paper to the same size as the notebook and cut to your liking.
- Glue the cut construction paper onto the notebook.
- Then trace or draw flowers onto another sheet of construction paper and start cutting the paper into the flowers of your choice.
- Once all of the flowers have been cut out, start gluing the paper flowers on to your notebook. Remember to save enough space to decorate the other half of the notebook.
- Design your notebook to express to yourself!
